SECRET

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Wednesday - 12 January 1972

1. (Secret - GLC) Met with Charles Lombard, Minority Staff Director of Senate Space Committee, and gave him the briefings for granting him compartmented clearances. Lombard then executed the appropriate security agreements.

2. (Confidential - GLC) Met with David Martin, Senate Internal Security Subcommittee staff, and provided him unclassified material in response to his request for speeches by Grechko and other Soviet leaders on various aspects of Soviet policy. See Journal of 7 January 1972.

I also left with Martin several items on use of Soviet intelligence agents in the UN and UNESCO in response to a request from CI Staff that this material be placed in the Congressional Record. Martin said he would look over these items and let me know whether they could be placed in the Record.

3. (Internal Use Only - LLM) Ted Kazy, Senior Staff Assistant, House Post Office and Civil Service Committee, called to report that he had now reviewed H. R. 7130, Fair Labor Standards Act Amendments of 1971, and has concluded that it does indeed pose a number of substantial problems. He learned from staff members of the Education and Labor Committee that formal clearance from the Civil Service Commission has been obtained. Kazy said that Representative H. R. Gross (R., Iowa), the Ranking Minority Member of the full Committee, is initiating action concerning the problems presented by the reported out bill, not the least of which is conflict in committee jurisdiction. He thanked us for calling the matter to his attention and said he would keep us advised.
